

Professional Summary

Combined academic studies with extensive practical training to develop a solid understanding of interior design from concept to execution. Gained hands-on experience in site coordination, project costing, material selection, construction details, furniture fabrication, and interior finishes while working with experienced engineers and technical specialists. Prepared to support design projects with a balance of creativity, technical knowledge, and attention to detail.

Education

Bachelor Degree in Interior Design (Third Year), Islamic University of Lebanon, Beirut, Lebanon

BT3 in Interior Design, Al Amlie German Institute, Lebanon

Experience

CIS Innovation Hub (CIS College), *Interior Design Trainee*, Lebanon

December 2025—Present

- Completed an intensive training program covering project planning, costing, and site execution.
- Prepared complete project cost estimates, including construction, finishing, and interior works.
- Conducted regular site visits to monitor project execution and understand construction workflows.
- Worked with construction materials, including **flooring, waterproofing systems, aluminum, glass, and gypsum board**.
- Gained practical experience with **lighting systems, wall finishes, decorative materials, and interior finishing works**.
- Learned furniture layout, space planning, color coordination, and material selection for residential and commercial projects.
- Studied land valuation, construction budgeting, municipality permits, and civil regulation requirements.
- Participated in project pricing, **BOQ preparation, and construction cost calculations**.

Practical Site & Workshop Training, *Interior Design Trainee*, Lebanon

December 2025—July 2026

- Completed practical training under Eng. Abdel Aytani, tile specialist Mohammad Khaled, tile manufacturing expert Abbas Youssef, and woodworking specialist Mohammad Shemis.
- Learned tile manufacturing, **cutting techniques, countertop fabrication**, and custom sink production in a tile factory.
- Trained in wood fabrication, furniture construction, installation methods, and wood finishing.
- Designed, manufactured, and sold custom furniture and decorative pieces under a personal brand.
